

# BODY II

safety harness

**Ergonomic and compact full BODY II harness for work at heights.**  
**Fully adjustable harness for support and protection against falling from a height.**

Full harness equipped with two attachment points (front, back) in accordance with EN 361. Ideal for working at heights in horizontal and inclined surfaces.

The main advantage is its low weight as well as the easy fitting and manipulation of the size adjustment (arms and thighs).

The harness is equipped with two gear loops with a maximum strength of 5 kg. It is possible to connect to the POLE II belt.  
Adjustment range: from 140 cm to 210 cm (height)

Sizes:

- S / M / L - grey triangle
- XL / XXL - yellow triangle
