

DUO/DUPLO ST

Safety point

Anchoring point Duo/Duplo ST is an anchoring device fixed to steel sheets of minimum thickness 5 mm, intended for attaching devices of individual protection to prevent from falling from a height for maximum three persons at the same time.

The anchoring point DUO/DUPLO ST complies with the requirements of the standard EN 795: 2012 type A and Technical Specification CEN/TS 16415: 2013. The anchoring point is available in two versions DUO and DUPLO, which have the same characteristics, are mounted in the same way, and differ only in appearance. Assembly is made by means of two screws M12. It is allowed to use only the screws supplied by the manufacturer. The anchoring point Duo/Duplo ST can be used in rope access techniques.

Specification

Material	INOX
Weight Duo/Duplo	0,5 kg/0,6 kg
Assembly diameter	13 mm
Users	3
Standard	EN 795 A, CEN/TS 16415
Warranty	12 miesięcy

Base for assembly

steel sheets	min. thickness 5 mm
