

# TRAX TR 3.0 PRO

Safety point

**A** accen

**TRAX TR 3.0 PRO is an anchoring device designed for attaching personal fall protection equipment for three people at the same time.**

The TRAX TR 3.0 PRO belaying post meets the requirements of EN 795: 2012 type A/C and Technical Specification CEN/TS 16415: 2013. Permanently installed on structural trapezoidal sheet with a minimum thickness of 0,7 mm. Designed for mounting on trapezoidal sheets from TR-50 to TR-160 laid both positive and negative. Fastening is done with 20 special self-drilling screws 6,3 x 25. The base of the post is symmetrical, which facilitates assembly and minimizes the risk of misalignment of the post to the trapezoidal sheet.

## Technical Specifications

<b>Material:</b>	INOX
<b>Weight:</b>	3,37 kg
<b>Size:</b>	500mm
<b>Diameter:</b>	16mm
<b>Users:</b>	3
<b>Norm:</b>	EN 795 typ A/C, CEN/TS 16415: 2013
<b>Warranty:</b>	1 year

## Mounting substrates:

trapezoidal sheets min. thickness 0,7mm
